

# Planning Workshop 2013

## Programme Vocational Training 2008

Industrial Vocational College of  
Việt Bắc - Vinacomin

### ***Part 1: Update of institute development***

- ***In 2011 and 2012, teachers and staffs participated in 18 training courses:***

- *Metal Cutting: 11 courses with 06 staffs and trainers*
- *Electrotechnic and Electronics: 7 courses with 2 trainers.*
- *In cooperation with GIZ expert, organised successfully 2 courses: “Assembling of bearing” and “Assembling of machinery devices”*
- *Department and institute managers participated in study tour to Germany on 3-layer TVET training approach.*

### **Part 1: Update of institute development**

- Institute trainers participated in other courses: MIT, tracer study, workshop management.
- With GIZ expert, the institute has finalised list of equipment as basis for further implementation.
- At campus 1, workshops, classrooms have been adjusted and installed with more facilities and equipment as appropriate according to advice by GIZ expert.
- At campus 2, core construction of 5-level building has completed with 5,400m<sup>2</sup>, will be completed Quarter III / 2013. Necessary procedures are being taken for construction of 1,029m<sup>2</sup> workshops

### **Part 1: Update of institute development: Utilisation of trained trainers following GIZ training courses:**

- *After the training courses, trainers have been able to apply gained knowledge and skills into their training of students (trainers have to make a complete product for students to observe before practicing), change in the organisation and use of practical training workshop (arrangement of equipment and facilities, training plan is elaborated logically for a complete training course, so that students can complete a workpiece at the end)*
- *Trained teachers/trainers will be asked by Dept. Head to share/re-train others for multiplication purpose (on topics: WS management, technical training courses...)*

## **Part 1: Update of institute development**

*-Plan of 2013:*

- In 2013, institute plan to complete the construction of practical training workshops for receiving project equipment on 31/12/2013 at campus 2. With advice of GIZ expert, re-organisation of workshops will be made, procurement of additional equipment and materials will be made for workshops in campus 1, plan activity for 2013.*
- The institute will cooperate with GDVT, GIZ and Vinacomin Corporation in fulfilling necessary procedures related to equipment.*

## **Planning Workshop 2013**

**Programme Vocational Training 2008**

**Industrial Vocational College of  
Việt Bắc – Vinacomin:**

***Cooperation with Enterprises***

## **Part 2: Cooperation with Enterprises**

*-Implemented activity:*

- *Contact enterprises in Vinacomin for cooperation opportunity on production of equipment (Electrical equipment Co. of TKV: production of box of electrical explosion prevention equipment; Machinery manufacturing Co.: cooperative production of hydraulic devices, hydraulic valve...)*
- *>90% students are of “contract training”*

## **Phần 2: Promoting cooperation with enterprises:**

*- 2013 plan:*

- *The institute has got sufficient training contracts with companies, enterprises for 2013. At the same time, the institute is considering appropriate devices for production and practical training of students.*

THANK YOU FOR YOUR  
ATTENTION!
