- **TVET – a key Factor for Development**
- **Vietnamese-German Cooperation in TVET**
  - Key reference points
  - Objectives of „Programme Reform of TVET in Viet Nam“
  - Implementing partners and guiding principles of cooperation
  - Main activity areas and characteristics
- **Implementation Experiences**
- **Future Potentials**
- **Summary**
TVET – a key factor for development

Demand-oriented TVET → Competent Workforce → Socio-economic development

Demand-oriented TVET → Competent Workforce → Modernisation/Industrialization

Demand-oriented TVET → Competent Workforce → Poverty Reduction

Demand-oriented TVET → Competent Workforce → ASEAN-Integration
Vietnamese-German Cooperation in TVET
"High-quality Human Resources" (especially "Skilled Labourer") are key factor in Vietnamese development strategies and policies.

- Vietnamese TVET Strategy 2011-2020
- BMZ's integrated Education Strategy with TVET being a core element
- TVET is one key element of Vietnamese-German Strategic Partnership Agreement (Hanoi Declaration), 11 October 2011
- TVET is Priority Area in Government to Government agreed Vietnamese-German Development Cooperation.
Objectives of „Programme Reform of TVET in Viet Nam“

What for?

- Improve demand-orientation and quality of TVET
- Increase the provision of competent workforce in Viet Nam
- Improving chances for gainful employment for individuals

Economic Development
Social Development
Implementing Partners

BMZ

GIZ and KfW

MoLISA

GDVT and criteria-based selected TVET institutes

Further public and private partners:
VCCI, VVTA, Vietnamese and German enterprises etc.
Guiding principles of Cooperation

- Building up capacities for change processes TVET on all levels (multi-level approach)
- Enabling individuals, organisations and networks for quality improvement of TVET.
- All partners work closely together in a partnership: principle of cooperation – not aid. Ownership, commitment, respectful relationships.
Main Activity Areas of „Programme Reform of TVET in Viet Nam“
Implementation characteristics

- **Interlinked Technical Cooperation (through GIZ) and Financial Cooperation (through KfW) in Viet Nam**
  Joint planning and implementation of TC and FC.

- **Close cooperation of with regional programmes**
  e.g. Regional Human Capacity Development programs, Regional Co-operation Platform for vocational teacher education in Asia

- **Drawing on key success factors of German TVET**
  Developing and piloting adapted and feasible solutions for Viet Nam:
  - Close cooperation between private and public stakeholders
  - Training in real world of work
  - Broad acceptance of standards
  - Qualified TVET staff
  - Institutionalised research and consultancy
Implementation Experiences
Teachers and trainees in collaboration with the German development advisor building up an industry-related mechatronic system, Ha Thinh Vocational College.
Piloting suitable forms of 
cooperative training 
with structured 
interlinked training 
phases in school and at 
workplace:

Training for trainees and 
teachers of Viet-Duc 
Vocational College Thai 
Nguyen at WIHA 
Company.
Modern equipment provided to selected TVET institutes and used in training.
Practice-oriented further training of TVET teachers
(using also expertise of German training providers).

Further training in Mechatronic according German standard for TVET teachers from TVET partner institutes.
Must: TVET teachers/trainers with "golden hands and brilliant minds" to train young people for the future workplace.
Future Potentials
Vietnamese-German Cooperation in TVET
Future Potentials

- Focus support on selected TVET institutes: Development of „Centre of Excellence LILAMA2 College“ on international standard (in preparation).

- Creating tangible good practice examples on cooperative training in Viet Nam (e.g. with German companies in Viet Nam).

- TVET System Advisory on amendment of TVET law, strengthening cooperation with business community and TVET teacher training.

- Integrate „Green Skills“ requirements into TVET (referring to Vietnamese „Green Growth“ strategy).
Summary

Key Factors for TVET Quality Breakthrough

- TVET oriented on occupational profiles/standards set by industry
- Cooperation with Business Community on different levels
- Competent TVET teaching staff
- Sustainable TVET Financing
Thank you for your attention.
